

**We care.**

## Our Climate Protection Concept

### sustainability

For a long time, sustainability and environmental protection have been our core assets and are part of our corporate philosophy.

### power saving multifunctional devices

When selecting our cooperation partners we require top performance concerning technological and ecological aspects.

### product-integrated environmental protection

berolina toner comes with an up to 2,5 fold yield compared to the standard cartridges of the printer manufacturer. With each berolina product you save 4,75 kg of CO<sub>2</sub>.

### packaging is 100% recyclable

We focus on a circular economy, the sustainable use of resources and prevention of waste. Our packing materials, boxes and inserts, contain recycled materials and are also 100% recyclable. We dispatch our products carbon neutral by UPS.

### the toner is tested for harmful substances

We use toner that is tested for harmful substances according to the requirements of the certificate "LGA-tested for contaminants" and „Nordic Swan“. Which is free of mutagenic substances (AMES test).

### waste disposal service

We stand for a professional disposal of all non-reusable parts.

### berolina 360° MPS

Printer- and copier environments are analyzed based on economic and ecological aspects and we offer you a tailor-made solution. We keep your existing systems installed to save your investments and avoid expensive and unnecessary new purchases. This also helps the environment: waste will be reduced.

### service/maintenance

Regular maintenance protects the devices and helps reduce CO<sub>2</sub> emissions. Clean printers ensure clear air.

**We shall be glad to tell you more about our green concepts.**
